PART II-TAXABLE PERCENTAGE

COMPUTATION OF TAXABLE PERCENTAGE

1.	Do you have documentation to support your claim?	Yes ___ NO ___
2.	If Yes, is the evidence written?	Yes ___ NO ___
3.	If line 1 is Yes, what type of documentation is it?	
a	Total hours (as reported on timesheets) Full time 2080	
b	Hours worked inside City	
c	Total hours worked (line a above)	
d	City taxable percentage (divide line b by line c)	_____ %

Line 3 a. Total hours – Total time as reported to employer on USPS Accounting Service Center. This is the total hours for which you were paid, including leave. For full time, full year employees this would not be less than 2080 hours (52 weeks x 40 hours/week).

Line 3 b. Hours worked inside city limits – Enter the total hours worked within the city limits. This includes time spent preparing files, etc. to be used outside the city. For example, if an employee came to their office within the city to pick up files and then went outside of the city for the rest of the day, or came into the office at the end of the day to drop off files, the time he/she spent in the city would be included here.

Line 3 c. Total hours worked – Total hours worked. Leave time (vacation, sick, personal, comp time) is normally earned based on the time worked. Thus, **leave pay is taxable** based on the percentage derived from hours worked inside the city Limits divided by total hours actually worked.

Line 3 d. City taxable percentage (divide line b by line c)
